

**The Advances in Mineral Metabolism AIMM/ASBMR John Haddad Young Investigators Meeting  
Snowmass CO  
April 4 – 8, 2017  
CALL FOR ABSTRACTS**

In the past, AIMM has sponsored very successful open sessions at its annual meeting. This has provided attendees with a chance to present their latest data 'off the bench' and "from the clinic" (case reports also welcome). You are invited to submit an abstract of the scientific research you would like to present in two open sessions for the upcoming meeting. Basic, clinical or translational research in any area of bone biology or clinical bone disease is appropriate for presentation.

Our aim is to achieve a balance between basic and clinical talks. You will be allocated 10 minutes for your talk and 5 minutes for questions.

In order to facilitate program planning, suitable abstracts are now being accepted on a first-come, first-served basis. Abstracts can be up to 2500 characters, including spaces and figures.

Authors will be notified as soon as their abstracts are accepted. Currently the clinical talks are scheduled for the Friday morning session and the basic/translational talks on Saturday morning.

Please email your abstract to [zampanaz@upenn.edu](mailto:zampanaz@upenn.edu).

Best regards,  
Richard Bockman & Nan Hatch
